

# Time to Talk

1. What would it be like on Earth without the sun? Could we survive?
2. How did people tell the time before watches were invented?

3. What do scientists think happened to the dinosaurs? Why did they die out?
4. Choose a space word and think of an action to go with it. Can your family guess what the word is?

Suggested words you could use are:

asteroid, astronaut, gravity, orbit, solar flare, gas giant, comet, dwarf planet, space, planet etc.

5. What words rhyme with:

space	air	fly	sun
-------	-----	-----	-----
